**To whom it may concern.**

*Re: Analysis of samples DST-01, DST-02 and DST-03*

I hereby certify that Kent Whiting from the Camp Dresser and McKee company came to the University of Colorado Boulder on October 2<sup>nd</sup> and 20<sup>th</sup> 2014 to analyze three samples originally labeled DST-01, DST-02 and DST-03. During the analysis, the samples were mislabeled, and I certify that sample DTS-01 is in fact DST-01, DTS-02 is DST-02, and DTS-03 is DST-03. Three photos of the actual analyzed samples and their original labels are attached to this letter.

Sincerely,

**Julien Allaz**
